

# EVAN HIGGINS

Student | University of Limerick

## PROFILE

My name is Evan Higgins. I am 24 years old and currently in my first year of studying Computer Science in the University of Limerick. I have been studying programming for 3 years prior to this, being self-thought through programming literature and the use of online courses, such as those supplied by Udemmy and Harvard's CS50. I am a driven and motivated person who has an extensive history of employment within the entertainment and hospitality sector since the age of 18. From this, I have a strong work ethic, approaching obstacles with a "do now, not later" attitude. I have a great eye for detail, assisting in the marketing side of business while employed as a Duty Manager within VUE (formerly Showtime) Cinema Limerick. I am a dedicated, loyal employee who works well within teams, putting a high focus on efficiency through time management and task delegation.
